

## **Persistent Strike - Mission**

**Identify and develop technologies which enable survivable, penetrating strike including air vehicle integration of directed energy weapons and concepts for simultaneous persistence and**

### **Approach**

- Identify and prioritize capability shortfalls relevant to scenarios of interest to Persistent Precision Engagement
- Lead solutions analysis efforts to pinpoint specific technology development requirements
- Maintain awareness of key user requirements

## **Technology Development**

- Advocate technology programs to user community
- Invest only in technologies that will address capability shortfalls for the user
- Develop and execute multi-Directorate/Agency integrated plans for technology development
